## Product Instruction

Acoustic Booth is a soundproof and private space which can be moved and disassembled. It is widely used in office, musical instrument training, education, live streaming and other fields.

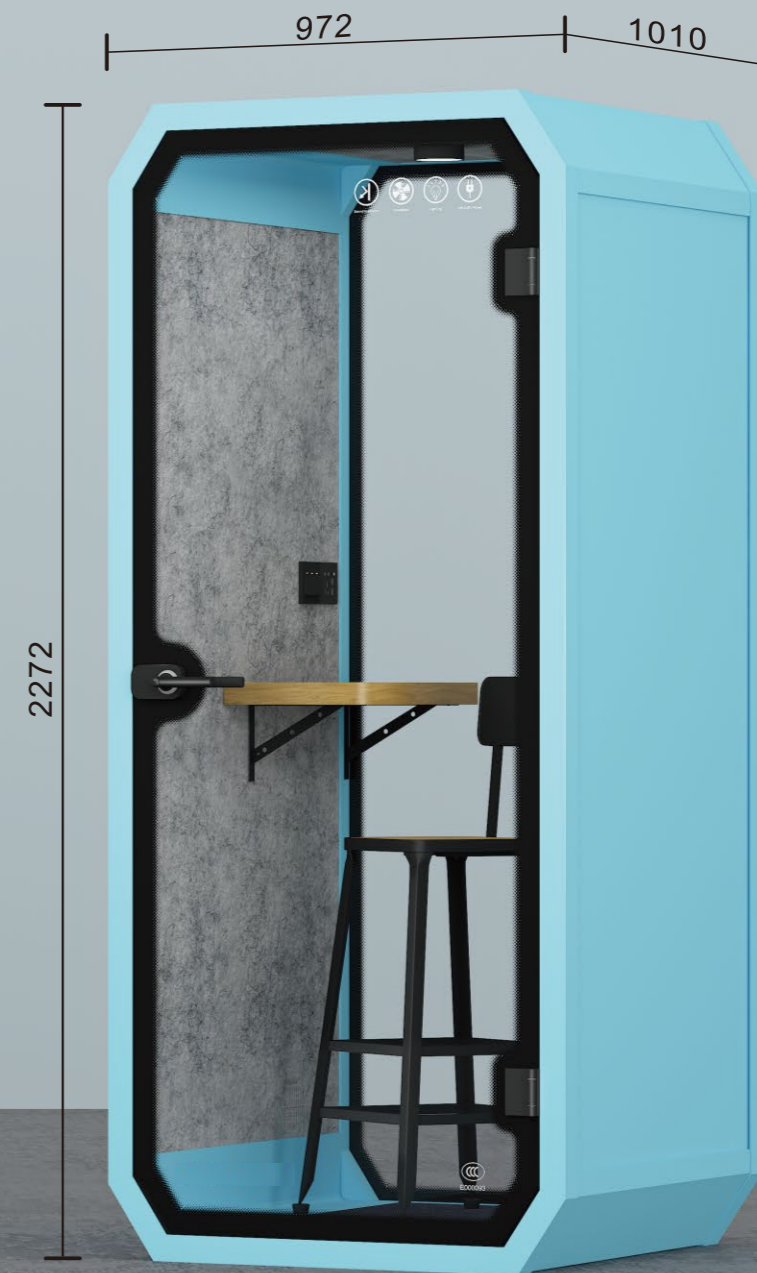

Our booth structure consists of supporting frame made from aerospace-grade aluminum profiles. Aluminum honeycomb panels and tempered glass, which you can find in high speed rail train. All aluminum materials are fireproof, no odor and stable, so that it reaches the fireproof and environmental protection requests. Acoustic PET panel for interior wall and ceiling, and nylon carpet on the floor, which reaches flame retardant and the acoustic environment requests.

## Product Features

### Sound Insulation

NRC:30dB( $\pm$ 5dB) Reverberation Time:0.25S

Acoustic Booth is made of 38mm thick double-layer aluminum honeycomb panel. The surface of the aluminum plate is pasted with high-density damping sound insulation felt to meet the requirements of sound insulation. The interior decoration is matched with acoustic materials to meet the requirements of acoustic environment.

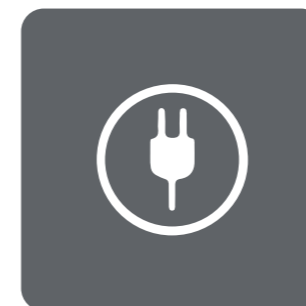

### Ventilation Fan

We made a multiple sound barrier for the ventilation tunnel to lower the noise of ventilation fan, meanwhile, the sound barrier can also reduce much of the sound transmission. The air in the booth can be circulated in 2 minutes, to ensure it won't be stuffy in the booth.

### Lighting

LED lighting system 150LX, it would satisfy the needs of normal activities. In the event of additional power requirements, a backup power supply is readily installed inside the booth. The lighting also can be customized.

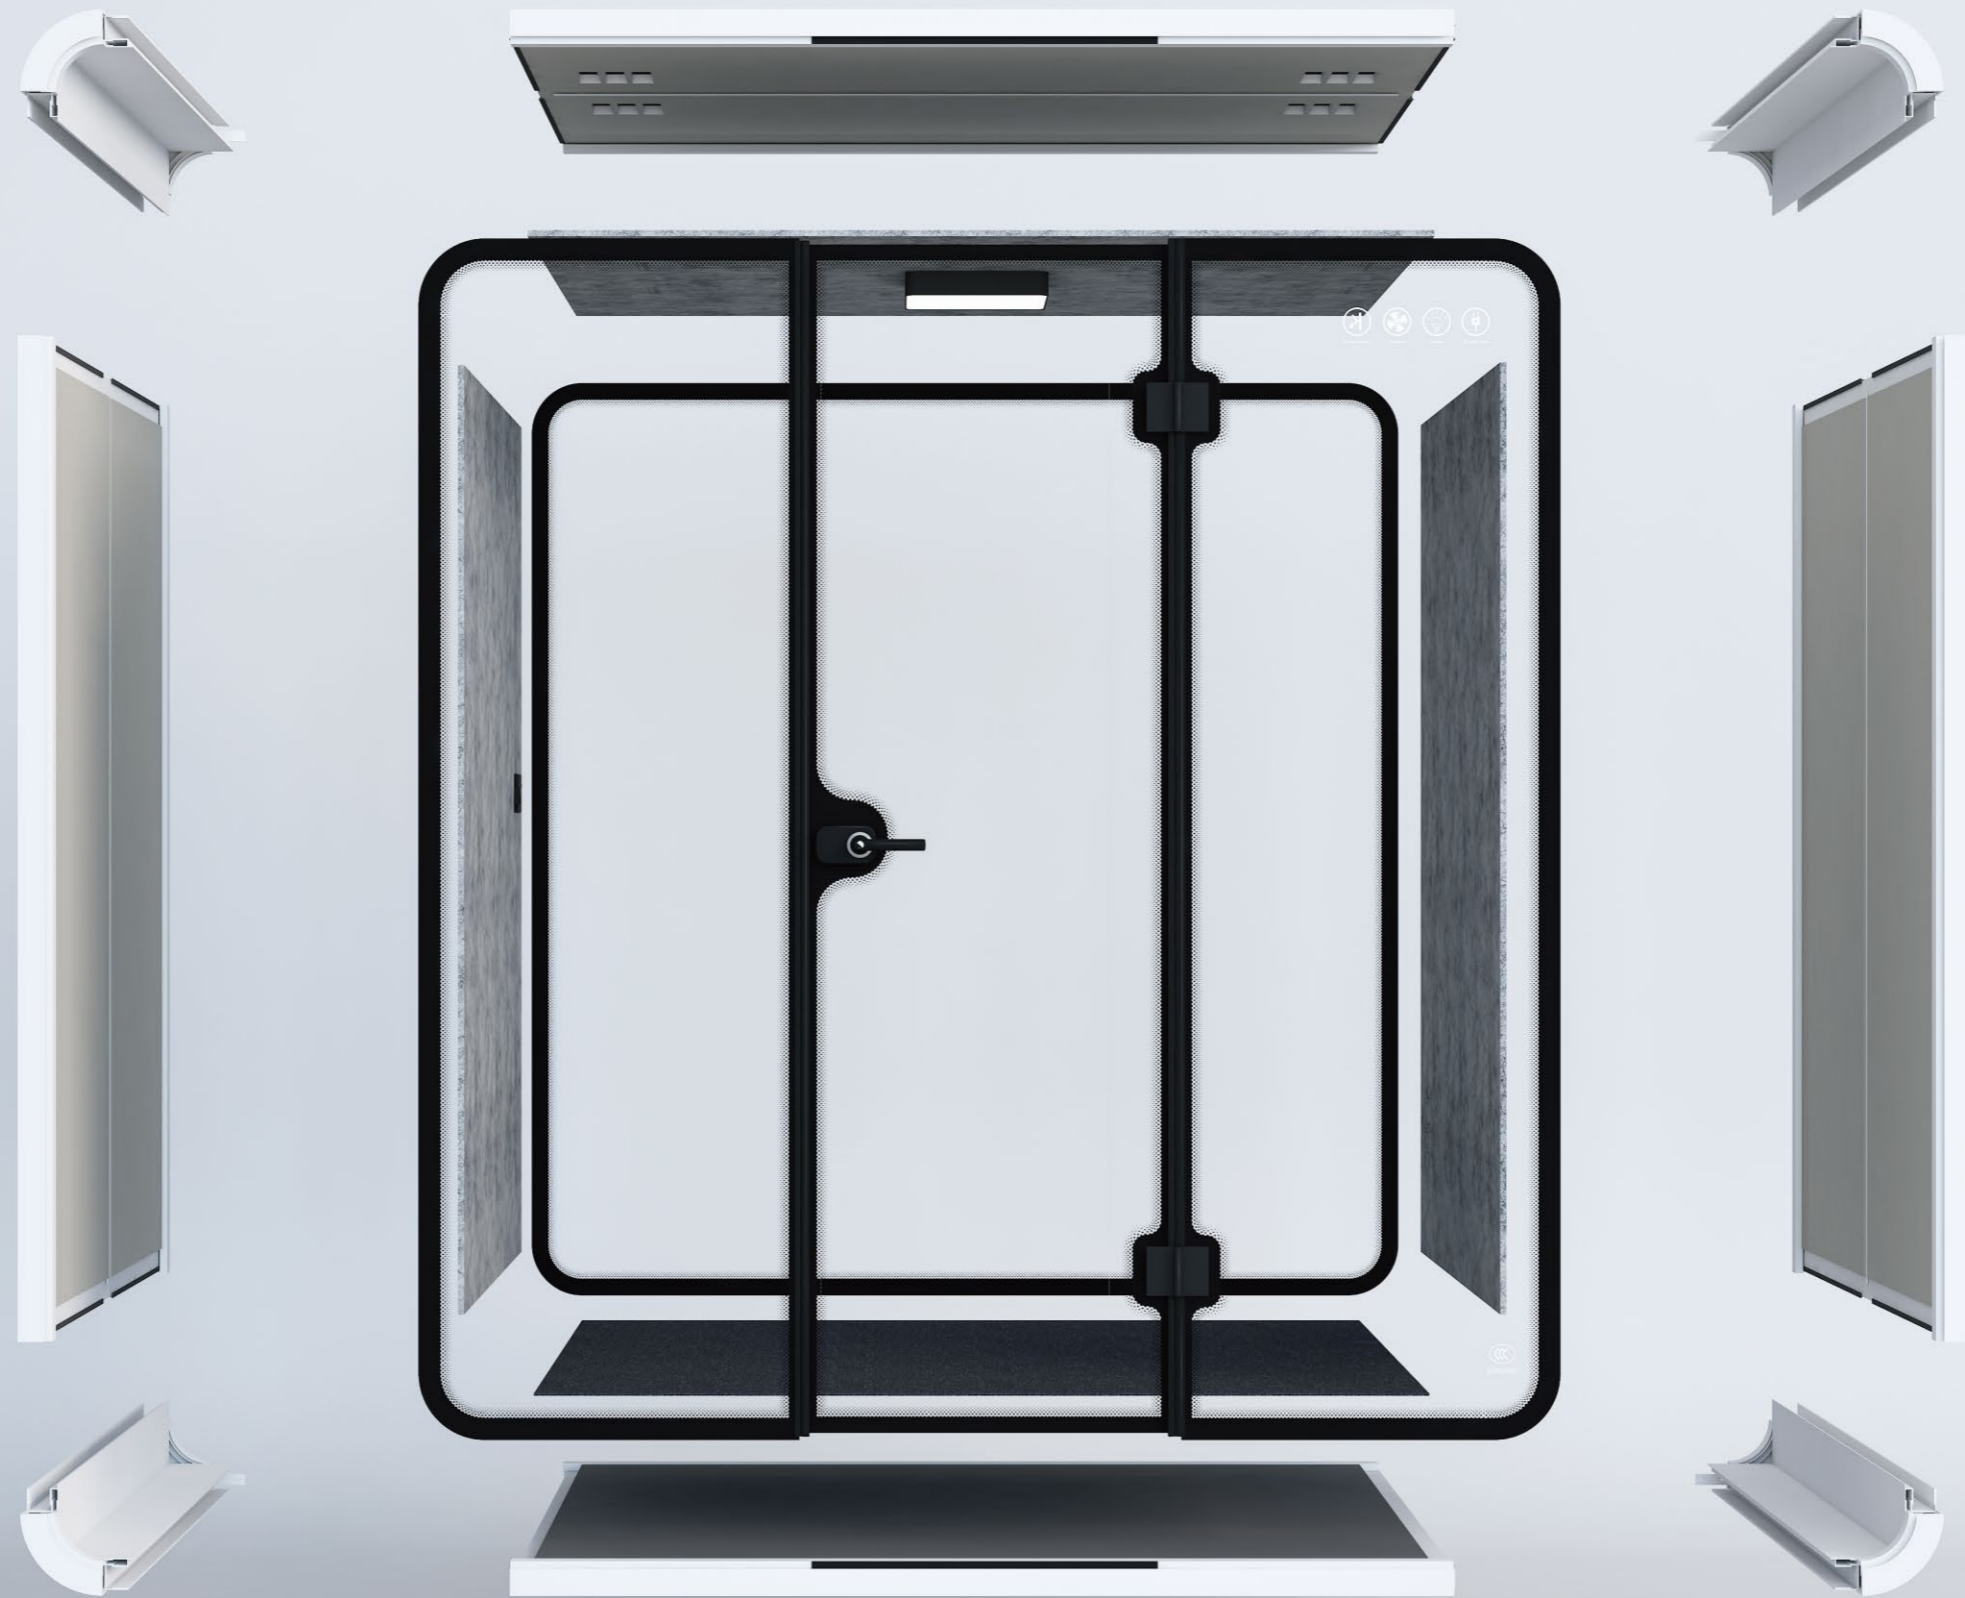

### 100-240V Power

Acoustic Booth is equipped with 12V-USB power supply and power rated for 100-240V/50-60Hz, complying with common equipment requirements. The three control switches control one lamp and two exhaustfans respectively.

# Modular Installation

Can be assembled in two hours

# Acoustic Booth Applications

## Phone Booth (Privacy Space)

When in the communication with customers, are you worried that your background noise may cause a bad experience? Are you worried that your phone calls may affect your colleagues? In an open-plan office environment, a private and soundproof phone booth is essential to provide a privacy space.

Singapore State Office Building

Biostime

Global Star Technology

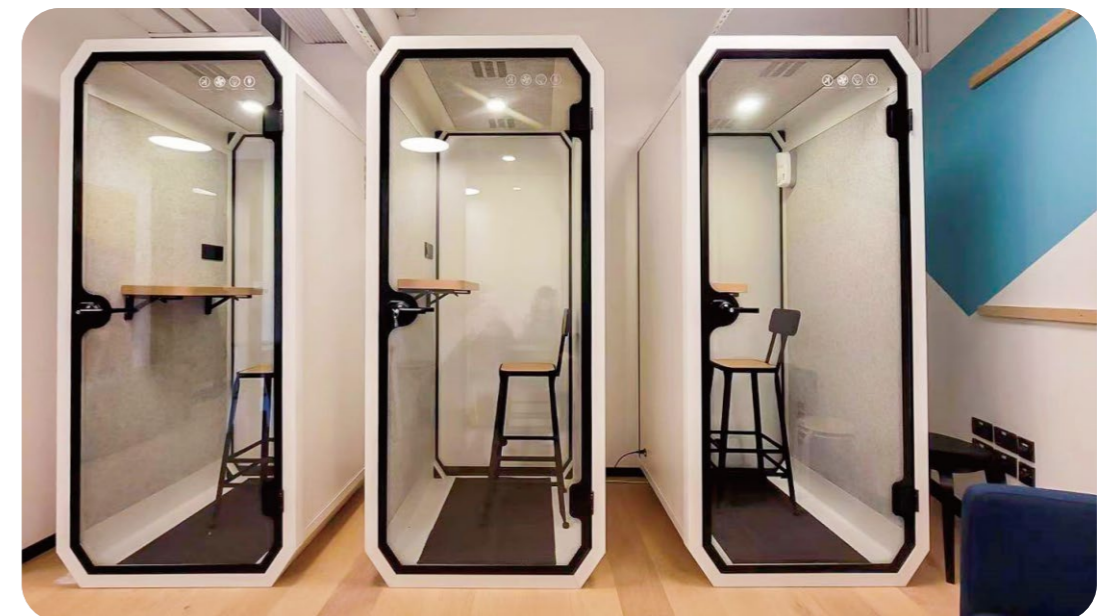

Darry Ring

China Asset Management

Wuhan University

Citibank (Hong Kong)

### University Cases

Our acoustic booths can be used in many places in universities, such as online interview, reading and so on.

Southwest University

Shenyang Jianzhu University

Dangchang County  
Secondary Vicatingal School

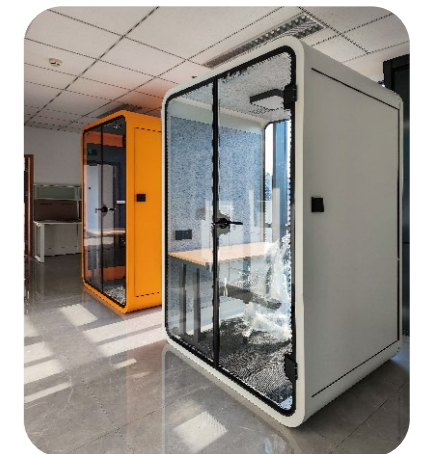

Huazhong University of Science and Technology

Wuhan Dongxihu District Cultural Center

### Study Pod

Placing study pods in the public area of the building, which increases the learning space for students, alleviates the pressure of insufficient seating in the studyroom, and provides a more private learning environment for students. Students can focus more on self-study, postgraduate entrance examination interviews, job interviews, remote meetings, remote exams and so on.

### Live streaming

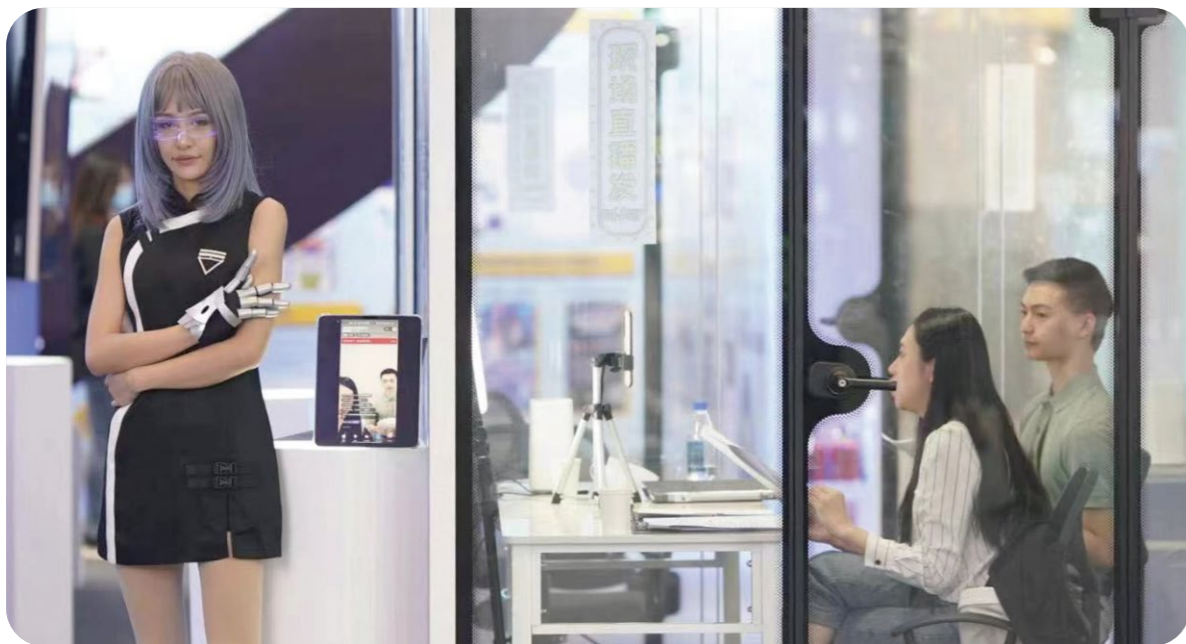

Live streaming is more and more popular. The function of privacy and soundproofing of the acoustic booth is perfect for live streaming.

New Oriental Education & Technology Group

Nexon (Game Commentary)

Zhaopin (Live streaming of the Exhibition)

### Musical Room

It has always been a headache that musical instruments practicing would disturb your neighbors.

Our Acoustic Booth can be an instrument training room with good sound insulation. It can solve the noise problem of musical instruments and has a acoustic environment for performance. Acoustic Booth applying to training institutions can not only guarantee simultaneous practice in the limited space but also ensure that participants do not interfere with each other.

### Shared Offices

Nowadays, office rents are high, and it is a hope for white-collar workers to have an independent and private office space.

Shared office is an office mode that uses shared office space to reduce rental costs. It has a full range of amenities, saving on decoration and utilities, and can be used immediately after renting. For companies / entrepreneurs in the early stage, it is very cost-effective!

As an independent office, our Acoustic Booth can be placed at will without decoration concerns.

Xuzhou Jifu Hospital

Shanghai President Real Estate

### Temporary Office/Negotiation Room

Most people have such annoyances. When we are waiting at the airport or station, we need a temporary office or negotiation room, but the noisy environment makes us unable to concentrate on our work.

In this case, Acoustic Booth can provide you with a quiet, comfortable and private space.
